

OpenAIRE Services for Research Performing Organisations

A short overview

<https://www.openaire.eu/>

OpenAIRE-Nexus has received funding from the European Union's Horizon 2020 Research and Innovation programme under Grant Agreements No. 101017452

Access to knowledge
is fundamental for all, to
drive change and create
opportunities. Open
Science paves the way.

European Commission
leads.
OpenAIRE co-leads.

OpenAIRE offers a series of services to Research Performing Organisations

Process

Step 01

Express your needs

You request services through an **OpenAIRE NOAD** or by contacting OpenAIRE directly. OpenAIRE listens to your needs and a in-detailed discussion leads to solutions.

Step 02

Let's make it official

OpenAIRE signs an **MOU** with you and initiates the collaboration. Personalized 1-1 calls for services are arranged.

Step 03

Public Launch

OpenAIRE supports the **interconnection, integrations, operations** and **delivery** of its services and disseminates the collaboration.

You enjoy research outcomes and focus on your priorities, while we design, build, set up, run and maintain the OpenAIRE services for you.

amnesia

Research produced
sensitive data,
personal data, and
GDPR guidelines,
might prevent their
process and analysis.
Researchers need to
overcome this barrier.

Sounds familiar?

With Amnesia,
researchers can
conduct research and
share their results that
satisfy **GDPR**
guidelines.
Research managers
can share data **safely**.

Amnesia allows you to anonymise your data, with **statistical guarantees** that the output **cannot** be **linked** to the original data!

How does Amnesia do that?

Amnesia runs k-
anonymity & km-
anonymity
algorithms

How it works

Step 01

Visit Amnesia

Visit amnesia website and browse through the information. Use the online application (for demo purposes) and try it. **Download** Amnesia and process your data. You can find demo data on Amnesia website.

Step 02

Insert data & configure

Insert your data, follow the instructions and setup the **configuration** for Amnesia to run. Not sure? Then use Amnesia **demo data** on website. View tutorials.

Step 03

Get anonymized data

Get your anonymised data ready to use with safety and accuracy!

How amnesia can help

Helps you overcome legal barriers to share data by anonymizing them

Allows you to safely share anonymized data

Save time and resources to extract value from big datasets

Guarantees minimal reduction of information quality and consistency

Safeguards against data misuse and exploitation risks

Can be used offline without exposing data to the internet

The easiest data anonymisation process

1

Visit <https://amnesia.openaire.eu/>

2

Download Amnesia and
anonymise data

3

Use the output for your research,
safely, efficiently, easily!

Price

Free online demo with demo data and support material

Free software to download

Email support via helpdesk@openaire.eu

Free*

On-demand package

Subscription fee
(500euros/month)

Personalised support & training, over teleconference

2-3 months*

How much does Amnesia service cost?

I need more 1-1 support, is this possible?

*Amnesia is funded by EU H2020 OpenAIRE-Nexus until June2023 (Grant Agreement No. 101017452)
